

ZOHO INTERVIEW

MASTER GUIDE (2026)

350+ Questions with Answers & Clear Explanations

Zoho Interview Process Included

Last Minute Preparation Guide

(50 Pages ~120 Minutes)

Zoho Interview Process (2026 Updated)

The hiring process at **Zoho Corporation** is designed to test **how you think**, not just what you remember.
Zoho focuses on **logical clarity, fundamentals, and long-term mindset** rather than college name or marks.

Most candidates fail not because of lack of knowledge, but because they **don't understand Zoho's expectation**.

📌 Overview of Zoho Hiring Stages

Zoho interview process usually consists of **3 to 4 stages**:

1. **Written Test / Online Assessment**
2. **Technical Interview – Round 1**
3. **Technical Interview – Round 2 (if required)**
4. **HR / Cultural Fit Interview**

👉 Some roles may skip or combine rounds, but the **core pattern remains the same**.

---

1 Written Test (Very Important)

This is the **elimination round**. Zoho filters candidates mainly here.

🔷 Sections Asked

✅ Aptitude

- Percentages
- Profit & Loss

- Time & Work
- Speed, Time & Distance
- Ratio & Proportion
- Number Series
- Logical reasoning

👉 Questions are **logic-based**, not formula-heavy.

✅ **Programming / Logical Coding**

(For developer & technical roles)

- Simple coding problems
- Logic implementation
- Pattern printing
- String & array problems

Common languages allowed:

- C
- C++
- Java
- Python

👉 **Logic explanation matters more than syntax perfection.**

✅ **Descriptive / Essay (Sometimes)**

Examples:

- *Why do you want to join Zoho?*
- *What motivates you to work long-term?*

Zoho's Expectation in Written Test

- Clear thinking
- Accuracy over speed
- Basic programming fundamentals
- No guesswork mindset

---

2 Technical Interview – Round

This round focuses on **core fundamentals**.

🔷 Areas Tested

Programming Basics

- What is OOPS?
- Difference between array and linked list
- Stack vs Heap
- Recursion
- Exception handling

Coding Logic (Live)

- Reverse a string
- Check palindrome
- Find second largest number
- Remove duplicates
- Fibonacci / Prime logic

👉 Interviewer may ask:

> "Explain your thinking step by step."

❌ What NOT to Do

- Don't mug up answers
- Don't rush
- Don't say "I don't know" immediately

Instead say:

> "I'll try to solve it logically."

---

3 Technical Interview – Round 2 (If Any)

This round checks:

- **Depth of understanding**
- **Consistency**

- **Problem-solving maturity**

You may be asked:

- To improve your previous answer
- To optimize code
- To explain edge cases
- About databases (basic level)

Examples:

- What is DBMS?
- Primary key vs foreign key
- Normalization
- Basic SQL queries

---

4 HR / Cultural Fit Interview

This is **NOT a formality** at Zoho.

🔷 Common HR Questions

- Tell me about yourself
- Why Zoho?
- What do you know about Zoho culture?
- Where do you see yourself in 5 years?
- Are you comfortable working long-term at Zoho?

- How do you handle failure?

What Zoho Looks For

- Honesty
- Stability
- Learning mindset
- Passion for problem-solving
- Respect for work culture

👉 Zoho prefers **long-term employees**, not job hoppers.

Zoho Interview Strategy (Very Important)

✔ Explain logic before writing code
✔ Be calm and clear
✔ Ask clarification questions
✔ Accept mistakes and correct them
✔ Show learning attitude

❌ Overconfidence = Rejection
❌ Memorized answers = Rejection

Why Zoho Interview is Different

- No stress on marks or college
- No HR pressure tactics

- No fake confidence appreciation
- Purely **thinking + attitude based hiring**

1.APTITUDE QUESTIONS

PERCENTAGES (1–15)

Q1. A number is increased by 20% and then decreased by 20%. Net change?
Answer: 4% decrease
Explanation: 100 → 120 → 96 ⇒ 4% decrease.

Q2. 25% of 240 is?
Answer: 60
Explanation: 240 × 1/4 = 60.

Q3. A is 40% more than B. B is how much % less than A?
Answer: 28.57%
Explanation: B=100, A=140 ⇒ (40/140)×100.

Q4. 30% of a number is 90. Find the number.
Answer: 300
Explanation: 90×100/30.

Q5. Price increases from 200 to 260. % increase?
Answer: 30%
Explanation: (60/200)×100.

Q6. 40% of X = 320. Find X.
Answer: 800
Explanation: 320×100/40.

Q7. Reduce 1000 by 15%.
Answer: 850
Explanation: 1000−150.

Q8. 75% of 80 = ?
Answer: 60
Explanation: 0.75×80.

Q9. 20% of a number is 50. Find number.
Answer: 250
Explanation: 50×100/20.

Q10. If price is increased by 25%, what % decrease brings it back?
Answer: 20%
Explanation: 25/125×100.

Q11. Salary increases from 20,000 to 24,000. % increase?
Answer: 20%
Explanation: 4000/20000.

Q12. 60 is what % of 150?
Answer: 40%
Explanation: 60/150×100.

Q13. A value increases by 10% twice. Net increase?
Answer: 21%
Explanation: 1.1×1.1=1.21.

Q14. Decrease 800 by 25%.
Answer: 600
Explanation: 800−200.

Q15. 90 is 45% of what number?
Answer: 200
Explanation: 90×100/45.

PROFIT & LOSS (16–30)

Q16. CP=500, SP=600. Profit %?
Answer: 20%
Explanation: 100/500×100.

Q17. CP=800, loss=10%. SP?
Answer: 720
Explanation: 800−80.

Q18. Profit=200 on CP=1000. Profit %?
Answer: 20%
Explanation: 200/1000.

Q19. 15% loss on CP 400. SP?
Answer: 340
Explanation: 400−60.

Q20. SP=1200, CP=1000. Profit %?
Answer: 20%
Explanation: 200/1000.

Q21. Gain 25% on CP 800. SP?
Answer: 1000
Explanation: 800+200.

Q22. Loss 20% on CP 500. SP?
Answer: 400
Explanation: 500−100.

Q23. CP:SP=5:6. Profit %?
Answer: 20%
Explanation: 1/5×100.

Q24. SP=900 after 10% loss. CP?
Answer: 1000
Explanation: 900×100/90.

Q25. Profit=150 on SP=750. Profit %?
Answer: 25%
Explanation: CP=600 ⇒ 150/600.

Q26. CP=400, SP=360. Loss %?
Answer: 10%
Explanation: 40/400.

Q27. +10% then −10%. Net?
Answer: 1% loss
Explanation: 1.1×0.9=0.99.

Q28. Profit 30% on CP 700. SP?
Answer: 910
Explanation: 700+210.

Q29. Loss 25%, SP=600. CP?
Answer: 800
Explanation: 600×100/75.

Q30. MP=1000, discount 10%. SP?
Answer: 900
Explanation: 1000−100.

TIME & WORK (31–45)

Q31. A completes work in 10 days. 1 day work?
Answer: 1/10
Explanation: Total work=1.

Q32. A+B in 6 days, A in 10 days. B alone?
Answer: 15 days
Explanation: 1/6−1/10=1/15.

Q33. A does work in 20 days. Work in 5 days?
Answer: 1/4
Explanation: 5/20.

Q34. A twice as efficient as B. Time ratio?
Answer: 1:2
Explanation: Time ∝ 1/Efficiency.

Q35. 6 men do work in 10 days. 10 men take?
Answer: 6 days
Explanation: Men×Days constant.

Q36. A in 8 days, B in 12 days. Together?
Answer: 4.8 days
Explanation: 1/(1/8+1/12).

Q37. 15 men work for 8 days. Man-days?
Answer: 120
Explanation: 15×8.

Q38. A does 40% in 8 days. Total days?
Answer: 20
Explanation: 8×100/40.

Q39. A+B in 10 days, B in 15 days. A alone?
Answer: 30 days
Explanation: 1/10−1/15=1/30.

Q40. B takes 20 days. A twice speed. A takes?
Answer: 10 days
Explanation: Half time.

Q41. 12 men finish in 15 days. 20 men?
Answer: 9 days
Explanation: 12×15/20.

Q42. A completes in 25 days. Daily work?
Answer: 1/25
Explanation: Definition.

Q43. Work doubles. Time becomes?
Answer: Double
Explanation: Direct proportion.

Q44. A works 3 days, B 2 days. Eff ratio 2:1. Total work?
Answer: 8 units
Explanation: A=2, B=1 ⇒ 3×2+2×1.

Q45. A+B in 5 days. A in 10 days. B alone?
Answer: 10 days
Explanation: 1/5−1/10=1/10.

SPEED–TIME–DISTANCE (46–60)

Q46. Speed 60 km/h for 2 h. Distance?
Answer: 120 km
Explanation: S×T.

Q47. 20 m/s = ? km/h
Answer: 72 km/h
Explanation: ×18/5.

Q48. Distance 150 km in 3 h. Speed?
Answer: 50 km/h
Explanation: D/T.

Q49. Speed doubles. Time becomes?
Answer: Half
Explanation: Inverse proportion.

Q50. Avg speed for equal distances at 40 & 60?
Answer: 48 km/h
Explanation: 2ab/(a+b).

Q51. Train 100 m crosses pole in 10 s. Speed?
Answer: 36 km/h
Explanation: (100/10)×18/5.

Q52. Speed +25%. Time decreases by?
Answer: 20%
Explanation: 25/125.

Q53. Speed −10%. Time increases by?
Answer: 11.11%
Explanation: 10/90.

Q54. 12 km at 12 km/h. Time?
Answer: 1 h
Explanation: D/S.

Q55. 15 m/s = ? km/h
Answer: 54 km/h
Explanation: 15×18/5.

Q56. 300 km in 5 h. Speed?
Answer: 60 km/h
Explanation: 300/5.

Q57. 5 km/h for 2 h. Distance?
Answer: 10 km
Explanation: S×T.

Q58. Half distance at 40, half at 60. Avg speed?
Answer: 48 km/h
Explanation: Equal distance formula.

Q59. 6 km at 12 km/h. Time?
Answer: 30 min
Explanation: 6/12=0.5 h.

Q60. Speed triples. Time becomes?
Answer: One-third
Explanation: Inverse relation.

RATIO & PROPORTION (61–75)

Q61. Divide 50 in ratio 2:3.
Answer: 20, 30
Explanation: 1 part=10.

Q62. Divide 120 in ratio 3:5.
Answer: 45, 75
Explanation: 1 part=15.

Q63. A:B=4:5, B:C=10:11. A:C?
Answer: 8:11
Explanation: Make B same.

Q64. Boys:Girls=3:2, total 50. Boys?
Answer: 30
Explanation: 5 parts ⇒ 10 each.

Q65. A:B=5:7, A=25. B?
Answer: 35
Explanation: 1 part=5.

Q66. 5:10 :: 15:?
Answer: 30
Explanation: Direct proportion.

Q67. Ages ratio 4:5, sum 36. Ages?
Answer: 16, 20
Explanation: 9 parts.

Q68. Divide 600 in ratio 2:1.
Answer: 400, 200
Explanation: 3 parts.

Q69. A:B=1:3, B:C=3:5. A:C?
Answer: 1:5
Explanation: Chain ratio.

Q70. Ratio 7:9, difference 20. Numbers?
Answer: 70, 90
Explanation: 2 parts=20.

Q71. A:B=6:7. B:A?
Answer: 7:6
Explanation: Invert.

Q72. Salary ratio 4:5. A=20000. B?
Answer: 25000
Explanation: 1 part=5000.

Q73. Divide 90 in ratio 2:7.
Answer: 20, 70
Explanation: 9 parts.

Q74. A:B=9:11, sum 100. A?
Answer: 45
Explanation: 20 parts.

Q75. Ages 5:6; after 5 yrs 6:7. A now?
Answer: 25
Explanation: Solve linear equation.

NUMBER SERIES & LOGIC (76–100)

Q76. 2,4,6,8, ?
Answer: 10
Explanation: +2.

Q77. 1,4,9,16, ?
Answer: 25
Explanation: Squares.

Q78. 2,6,12,20, ?
Answer: 30
Explanation: +4,+6,+8,+10.

Q79. 5,10,20,40, ?
Answer: 80
Explanation: ×2.

Q80. 100,90,80, ?
Answer: 70
Explanation: −10.

Q81. 3,6,12,24, ?
Answer: 48
Explanation: ×2.

Q82. 1,1,2,3,5, ?
Answer: 8
Explanation: Fibonacci.

Q83. 7,14,21, ?
Answer: 28
Explanation: +7.

Q84. 81,27,9, ?
Answer: 3
Explanation: ÷3.

Q85. 2,3,5,7, ?
Answer: 11
Explanation: Primes.

Q86. 10,20,30, ?
Answer: 40
Explanation: +10.

Q87. 1,8,27, ?
Answer: 64
Explanation: Cubes.

Q88. 4,16,64, ?
Answer: 256
Explanation: ×4.

Q89. 6,11,21, ?
Answer: 36
Explanation: +5,+10,+15.

Q90. 1,3,6,10, ?
Answer: 15
Explanation: Triangular numbers.

Q91. 100,50,25, ?
Answer: 12.5
Explanation: ÷2.

Q92. 9,18,27, ?
Answer: 36
Explanation: +9.

Q93. 2,5,10,17, ?
Answer: 26
Explanation: +3,+5,+7,+9.

Q94. 0,1,1,2,3, ?
Answer: 5
Explanation: Fibonacci.

Q95. 50,45,40, ?
Answer: 35
Explanation: −5.

Q96. 1,4,10,20, ?
Answer: 35
Explanation: +3,+6,+10,+15.

Q97. 3,9,27, ?
Answer: 81
Explanation: ×3.

Q98. 11,22,33, ?
Answer: 44
Explanation: +11.

Q99. 2,4,8,16, ?
Answer: 32
Explanation: ×2.

Q100. 1,2,4,7, ?
Answer: 11
Explanation: +1,+2,+3,+4.

2.LOGICAL REASONING

50 Questions with Answer & Explanation

Q1. Find the next number:

2, 6, 12, 20, ?

Answer: 30

Explanation:
Pattern:
2×1, 3×2, 4×3, 5×4
Next = 6×5 = **30**

Q2. Find the missing number:

1, 4, 9, 16, ?

Answer: 25

Explanation:
Squares:
1^2, 2^2, 3^2, 4^2
Next = 5^2 = **25**

Q3. Find the next number:

3, 6, 11, 18, ?

Answer: 27

Explanation:
+3, +5, +7, +9
18 + 9 = **27**

Q4. Find the next number:

5, 10, 20, 40, ?

Answer: 80

Explanation:
Each number ×2.

Q5. Find the next number:

1, 1, 2, 3, 5, ?

Answer: 8

Explanation:
Fibonacci series
1+1=2, 1+2=3, 2+3=5, 3+5=8

Q6. Find the next number:

100, 90, 80, ?

Answer: 70

Explanation:
Decreasing by 10.

Q7. Find the next number:

2, 4, 8, 16, ?

Answer: 32

Explanation:
Multiplying by 2.

Q8. Find the next number:

1, 8, 27, ?

Answer: 64

Explanation:
Cubes:
$1^3, 2^3, 3^3, 4^3$

Q9. Find the next number:

7, 14, 21, ?

Answer: 28

Explanation:
Adding 7 each time.

Q10. Find the next number:

81, 27, 9, ?

Answer: 3

Explanation:
Dividing by 3.

ANALOGY

Q11. Cat : Kitten :: Dog : ?

Answer: Puppy

Explanation:
Kitten is young one of cat → Puppy is young one of dog.

Q12. Hand : Finger :: Tree : ?

Answer: Branch

Explanation:
Finger is a part of hand → Branch is a part of tree.

Q13. Doctor : Hospital :: Teacher : ?

Answer: School

Explanation:
Doctor works in hospital → Teacher works in school.

Q14. Eye : See :: Ear : ?

Answer: Hear

Explanation:
Eye is used to see → Ear is used to hear.

Q15. Book : Read :: Food : ?

Answer: Eat

Explanation:
Book is read → Food is eaten.

ODD ONE OUT

Q16. Apple, Mango, Banana, Potato

Answer: Potato

Explanation:
Potato is a vegetable; others are fruits.

Q17. Dog, Cat, Cow, Tiger

Answer: Cow

Explanation:
Cow is herbivore; others are carnivores/omnivores.

Q18. Pen, Pencil, Eraser, Notebook

Answer: Eraser

Explanation:
Eraser is used to remove writing, others are for writing.

Q19. Square, Rectangle, Triangle, Circle

Answer: Circle

Explanation:
Circle has no sides; others have sides.

Q20. January, February, March, Sunday

Answer: Sunday

Explanation:
Sunday is a day; others are months.

DIRECTION & POSITION

Q21. A walks 10m north, then 10m east. How far from start?

Answer: 14.14 m

Explanation:
Right triangle → $\sqrt{(10^2+10^2)} = \sqrt{200} =$ **14.14 m**

Q22. If South becomes North and East becomes West, what will West become?

Answer: East

Explanation:
All directions are reversed.

Q23. A is facing East. Turns right, then left. Final direction?

Answer: East

Explanation:
Right → South, Left → East.

Q24. A moves 5 km north, then 5 km south. Distance from start?

Answer: 0 km

Explanation:
Returns to starting point.

Q25. A is 10m to the left of B. B is 10m to the left of C. Distance A to C?

Answer: 20 m

Explanation:
Same direction, distances add.

ALPHABET LOGIC

Q26. A=1, B=2, C=3. What is value of DOG?

Answer: 26

Explanation:
D=4, O=15, G=7 → 4+15+7 = **26**

Q27. If CAT = 24, then DOG = ?

Answer: 26

Explanation:
Same alphabetical sum logic.

Q28. Z is which number?

Answer: 26

Explanation:
Z is 26th alphabet.

Q29. What comes next?

A, C, E, G, ?

Answer: I

Explanation:
Skipping one alphabet each time.

Q30. What comes next?

Z, X, V, ?

Answer: T

Explanation:
Skipping one alphabet backward.

CODING–DECODING

Q31. If CAT is coded as DBU, then DOG?

Answer: EPH

Explanation:
Each letter +1
D→E, O→P, G→H

Q32. If APPLE = BQQMF, then BALL?

Answer: CBMM

Explanation:
Each letter +1.

Q33. If 123 is written as 321, then 456 is?

Answer: 654

Explanation:
Digits reversed.

Q34. If RAM = 18, SAM = ?

Answer: 19

Explanation:
R=18, S=19 (alphabet position).

Q35. If PEN = QFO, then BOOK = ?

Answer: CPPL

Explanation:
Each letter +1.

STATEMENT & CONCLUSION

Q36. All pens are pencils. All pencils are books. Conclusion?

Answer: All pens are books

Explanation:
Direct syllogism rule.

Q37. Some cats are dogs. All dogs are animals. Conclusion?

Answer: Some cats are animals

Explanation:
Some + All logic.

Q38. All cars are vehicles. Some vehicles are bikes. Conclusion?

Answer: Some cars are bikes – NOT certain

Explanation:
No direct link.

Q39. No man is immortal. Ram is a man. Conclusion?

Answer: Ram is not immortal

Explanation:
Direct negative statement.

Q40. Some students are intelligent. Conclusion?

Answer: Some intelligent are students

Explanation:
Conversion is valid.

MISCELLANEOUS

Q41. Which number replaces the question mark?

2, 3, 5, 8, ?

Answer: 13

Explanation:
Each number = sum of previous two.

Q42. Find the next number:

1, 4, 10, 20, ?

Answer: 35

Explanation:
+3, +6, +10, +15

Q43. Find the next number:

9, 18, 27, ?

Answer: 36

Explanation:
Adding 9.

Q44. Find the next number:

6, 11, 21, ?

Answer: 36

Explanation:
+5, +10, +15

Q45. Find the next number:

1, 2, 4, 7, ?

Answer: 11

Explanation:
+1, +2, +3, +4

Q46. Which is different?

Iron, Gold, Silver, Plastic

Answer: Plastic

Explanation:
Plastic is non-metal.

Q47. Which comes next?

Monday, Wednesday, Friday, ?

Answer: Sunday

Explanation:
Alternate days.

Q48. Which number is odd one out?

2, 3, 5, 7, 9

Answer: 9

Explanation:
9 is not prime.

Q49. Find the next number:

16, 8, 4, ?

Answer: 2

Explanation:
Dividing by 2.

Q50. Find the next number:

4, 9, 16, 25, ?

Answer: 36

Explanation:
Squares:
$2^2, 3^2, 4^2, 5^2 \rightarrow 6^2$

3.Programming / Logical Coding

(Zoho Interview – Developer & Technical Roles)

> ⚠️ **Important Zoho Rule:**
> Zoho checks **how you think**, not how fast you code.
> **Logic explanation > syntax perfection**

SECTION OVERVIEW

In this section, Zoho mainly tests:

- Logical thinking
- Problem breakdown
- Basic programming fundamentals
- Ability to explain approach clearly

Languages allowed:

- C
- C++
- Java
- Python

---

25 MOST ASKED PROGRAMMING / LOGICAL CODING QUESTIONS

(With Answer & Explanation)

BASIC LOGIC & NUMBERS

Q1. Write a program to check whether a number is even or odd.

Answer (Logic):
If number % 2 == 0 → Even
Else → Odd

Explanation:
Even numbers are divisible by 2 with remainder 0.
This tests **basic conditional logic**.

Q2. Write a program to check whether a number is prime.

Answer (Logic):
Check divisibility from 2 to √n.

Explanation:
A prime number has only two factors: 1 and itself.
Checking till √n improves efficiency.

Q3. Find the factorial of a number.

Answer (Logic):
Multiply numbers from 1 to n.

Explanation:
Factorial of n = n × (n−1) × (n−2)…×1
Tests **loops & multiplication logic**.

Q4. Write a program to reverse a number.

Answer (Logic):
Extract digits using % 10 and rebuild number.

Explanation:
Use remainder to get last digit and divide by 10 to reduce number.

Q5. Check whether a number is a palindrome.

Answer (Logic):
Reverse the number and compare with original.

Explanation:
If reversed value equals original, it is a palindrome.

STRING LOGIC (VERY IMPORTANT)

Q6. Reverse a string.

Answer (Logic):
Traverse string from last index to first.

Explanation:
This tests **string indexing and traversal**.

Q7. Check whether a string is a palindrome.

Answer (Logic):
Compare original string with reversed string.

Explanation:
Same logic as numeric palindrome, applied to strings.

Q8. Count number of vowels in a string.

Answer (Logic):
Check each character against a, e, i, o, u.

Explanation:
Simple loop + condition check.

Q9. Find the frequency of a character in a string.

Answer (Logic):
Initialize counter and increment when match found.

Explanation:
Tests **loop + condition + counting logic**.

Q10. Remove duplicate characters from a string.

Answer (Logic):
Store characters already seen and skip duplicates.

Explanation:
Logic matters more than using built-in functions.

ARRAY LOGIC (ZOHO FAVORITE)

Q11. Find the largest number in an array.

Answer (Logic):
Assume first element as max and compare with others.

Explanation:
Tests **comparison logic**.

Q12. Find the second largest number in an array.

Answer (Logic):
Track both largest and second largest values.

Explanation:
Common Zoho question to test **careful thinking**.

Q13. Reverse an array.

Answer (Logic):
Swap first and last, move inward.

Explanation:
Tests **index manipulation**.

Q14. Remove duplicate elements from an array.

Answer (Logic):
Compare each element with others or use extra array.

Explanation:
Logic approach is more important than optimized solution.

Q15. Find the sum of array elements.

Answer (Logic):
Initialize sum = 0 and add each element.

Explanation:
Basic loop understanding.

PATTERN PRINTING (VERY COMMON IN ZOHO)

Q16. Print a right-angle triangle pattern.

```
*
**
***
****
```

Answer (Logic):
Outer loop → rows
Inner loop → stars

Explanation:
Pattern questions test **loop nesting clarity**.

Q17. Print number pattern.

```
1
12
```

123
1234

Answer (Logic):
Print numbers from 1 to row number.

Explanation:
Simple nested loops with variable control.

Q18. Print reverse star pattern.

****
***
**
*

Answer (Logic):
Decrease number of stars per row.

Explanation:
Tests **reverse looping**.

LOGIC IMPLEMENTATION

Q19. Swap two numbers without using third variable.

Answer (Logic):
Use addition/subtraction or XOR.

Explanation:
Classic Zoho logic question.

Q20. Find Fibonacci series up to n terms.

Answer (Logic):
Each term = sum of previous two.

Explanation:
Tests **sequence understanding**.

Q21. Count digits in a number.

Answer (Logic):
Divide number by 10 repeatedly and count.

Explanation:
Tests number manipulation.

Q22. Check whether a year is a leap year.

Answer (Logic):
Divisible by 4 and not by 100, or divisible by 400.

Explanation:
Tests logical conditions.

Q23. Find GCD of two numbers.

Answer (Logic):
Use Euclidean algorithm.

Explanation:
Efficient logical thinking is valued.

Q24. Find LCM of two numbers.

Answer (Logic):
LCM = (a × b) / GCD

Explanation:
Shows relationship between GCD & LCM.

Q25. Count words in a sentence.

Answer (Logic):
Split sentence by spaces and count words.

Explanation:
Simple string logic.

HOW TO ANSWER IN ZOHO INTERVIEW (IMPORTANT)

When interviewer asks a coding question:

1️⃣ Explain logic in words first
2️⃣ Then write code
3️⃣ Handle edge cases
4️⃣ Stay calm if mistake happens

👉 Even **partially correct logic** can get selected.

4.Technical Interview – Round

(Zoho Developer & Technical Roles)

This round mainly evaluates your **core fundamentals** and **thinking clarity**.
Zoho interviewers are not interested in memorized definitions—they want to see **how you approach a problem**.

> ⭐ **Key Rule:**
> If your fundamentals are strong, this round becomes easy.

Areas Tested in Technical Interview – Round 1

1. Programming Basics (Very Important)

These questions check whether you **truly understand the basics**, not just syntax.

🔶 What is OOPS?

Expected understanding:

- Object-Oriented Programming is a way to design programs using **objects and classes**.
- Focus on **real-world modeling**.

Zoho checks:

- Can you explain in **simple words**?
- Can you give a **real-life example**?

👉 Avoid textbook definitions. Use examples.

🔶 Difference between Array and Linked List

Array	Linked List
Fixed size	Dynamic size
Continuous memory	Non-contiguous memory
Faster access	Slower access
Insertion costly	Easy insertion

Zoho focus:
👉 *When to use what?*
Not just differences.

🔶 Stack vs Heap

Stack:

- Used for function calls
- Faster access
- Automatic memory management

Heap:

- Used for dynamic memory
- Slower than stack
- Manual / GC-based management

👉 Interviewer may ask:

"Why is stack faster than heap?"

🔶 What is Recursion?

Expected answer:

- A function calling itself to solve smaller sub-problems.
- Must have a **base condition**.

Zoho emphasis:

- Can you explain **how recursion stops**?
- Can you convert recursion to iteration?

🔶 What is Exception Handling?

Purpose:

- Handle runtime errors
- Prevent program crash
- Maintain program flow

Zoho checks:

- Why exception handling is needed
- Difference between error and exception (basic level)

---

2. Coding Logic (Live Coding)

This is the **most important part** of the round.

👉 You may be asked to:

- Write code on paper
- Explain logic orally
- Code on system or whiteboard

🔶 Reverse a String

What interviewer checks:

- String traversal
- Index handling
- Logical clarity

👉 Not interested in built-in functions first.

🔶 Check Palindrome

Logic expected:

- Reverse and compare
- OR compare characters from both ends

Zoho focus:

- Handling edge cases
- Explaining each step clearly

🔶 Find Second Largest Number

Why Zoho asks this:

- Tests careful thinking
- Tests comparison logic
- Common mistake-prone question

👉 Interviewer looks for:

- Correct initialization
- Handling duplicates

🔶 Remove Duplicates

Expected approach:

- Loop comparison
- Extra array or temporary storage

Zoho mindset:

> "Explain your logic first, optimize later."

🔶 Fibonacci / Prime Number Logic

Fibonacci checks:

- Sequence understanding
- Loop control

Prime checks:

- Divisibility logic
- Loop optimization (√n idea)

What Interviewer REALLY Observes

✔ How you break the problem
✔ How you explain logic
✔ Whether you panic on mistakes
✔ Your confidence without arrogance

👉 **Silence + thinking = good sign**
👉 **Guessing fast = bad sign**

❌ Common Mistakes to Avoid

❌ Jumping into code without explanation
❌ Using complex words unnecessarily
❌ Saying “I don’t know” immediately
❌ Rushing due to nervousness

Answer Smartly

1️⃣ Explain approach in words
2️⃣ Write step-by-step logic
3️⃣ Then convert to code
4️⃣ Accept corrections calmly

Example:

> “First, I’ll explain the logic. Then I’ll write the code.”

⭐ Final Tip for Round 1

> "Zoho does not expect perfect code.
> They expect **perfect thinking clarity**."

If your logic is strong, syntax mistakes are forgiven.

5.Zoho HR / Cultural Fit Interview

1 Why should we hire you for Zoho?

What Zoho expects:

- Fundamentals
- Learning mindset
- Long-term intent

Smart answer direction:

> Emphasize problem-solving, basics, and willingness to grow internally.

---

2 What motivates you to work at Zoho instead of other MNCs?

Zoho looks for:

- Cultural preference, not brand chasing

Answer direction:

> Learning culture, self-reliance, long-term growth.

---

3 Are you comfortable working without immediate recognition?

Why Zoho asks this:
Zoho culture is **low-hype, high-learning**.

Answer direction:

> Yes, learning and impact matter more than quick appreciation.

---

4 How do you handle monotonous or repetitive work?

Zoho checks:
Patience + discipline.

Answer direction:

> Treat repetitive work as a chance to improve accuracy and understanding.

---

5 What will you do if you don't understand a task?

Zoho checks:
Ego vs clarity.

Answer direction:

> Ask questions, break task into smaller parts, learn and proceed.

---

6 Do you prefer guidance or independence?

Zoho prefers:
Balanced independence.

Answer direction:

> Start with guidance, then work independently once clarity is achieved.

7 How do you react to feedback or criticism?

Zoho checks:
Coachability.

Answer direction:

Accept feedback calmly and use it to improve.

---

8 Are you comfortable working in Zoho's campus-based culture?

Hidden check:
Commitment.

Answer direction:

Yes, campus culture supports focus and learning.

---

9 What does "long-term growth" mean to you?

Zoho wants:
Stability mindset.

Answer direction:

Growing skills, taking responsibility, and contributing consistently.

---

10 How do you learn new technologies?

Zoho checks:
Self-learning ability.

Answer direction:

Learn fundamentals first, then apply through practice.

---

11 What will you do if your solution is rejected?

Zoho checks:
Ego control.

Answer direction:

Understand feedback, rework solution, and improve.

---

12 How do you manage stress or pressure?

Zoho prefers:
Calm thinkers.

Answer direction:

Break problems, stay organized, and focus on logic.

---

13 Would you stay if growth is slow initially?

Very important Zoho question

Correct direction:

Yes, strong foundations take time and patience.

---

14 Do you prefer salary or learning?

Zoho expects:
Learning-first answer.

Answer direction:

Learning creates long-term value, salary follows.

---

15 What kind of work environment helps you perform best?

Zoho prefers:
Low-noise, focused environment.

Answer direction:

Calm, learning-oriented, distraction-free environment.

---

16 How do you ensure quality in your work?

Zoho checks:
Attention to detail.

Answer direction:

Double-check logic, test scenarios, and review outcomes.

---

17 Have you ever failed? What did you learn?

Zoho wants:
Reflection, not drama.

Answer direction:

Explain learning and improvement, not emotion.

---

18 What would you do if a senior disagrees with you?

Zoho checks:
Respect + reasoning.

Answer direction:

Explain logic respectfully and accept final decision.

---

19 How do you prioritize tasks?

Zoho checks:
Practical thinking.

Answer direction:

Based on urgency, impact, and clarity.

---

20 What does success mean to you?

Zoho prefers:
Internal growth definition.

Answer direction:

Becoming reliable, skilled, and impactful over time.

---

21 How do you handle ambiguity?

Zoho checks:
Comfort with unclear problems.

Answer direction:

Ask questions, analyze requirements, and proceed logically.

---

22 Are you open to continuous learning?

Expected answer:
Yes, always.

Add:

Learning never stops in technology.

---

23 How do you ensure honesty in your work?

Zoho values:
Integrity.

Answer direction:

Transparent communication and owning mistakes.

---

24 What will you do if you make a mistake?

Zoho prefers:
Responsibility.

Answer direction:

Accept, fix, and learn from it.

---

25 Why do you want to build your career at Zoho?

Final cultural question

Perfect direction:

Alignment with Zoho's learning culture, stability, and values.

ZOHO HR GOLDEN RULE

"Zoho doesn't hire the loudest candidate.
They hire the **clearest thinker**."

⚠️ DISCLAIMER

This PDF is created **only for educational and awareness purposes** to help candidates understand the **interview pattern and preparation strategy** for **Zoho Corporation**.

We (TN Velai vaaipu) are **not affiliated with Zoho Corporation** in any manner.
All interview processes, question patterns, and hiring procedures may change over time. Candidates are strongly advised to **verify the latest information only through Zoho's official careers website** before applying.

This guide is based on:

- Candidate experiences
- Publicly available information
- Interview preparation knowledge

No guarantee of selection is implied.

👉 **No fees are required** to apply for Zoho interviews.
👉 **Never pay money to anyone claiming guaranteed placement or internal reference.**
